The Alaska Railroad has budgeted approximately \$43.1 million in new spending for capital improvements in 2010. About \$14.3 million will come from Federal Transit Administration (FTA) grants. This amount includes a required 9% matching contribution from the Alaska Railroad. In addition to FTA grant match, ARRC will spend another \$19.1 million toward internally-funded capital projects using revenues generated from passenger, freight and real estate activity. Finally, the railroad will spend about \$9.7 million of funds generated from the sale of revenue bonds that were sold in 2006 and 2007. Bonds are repaid with FTA formula fund appropriations.
