## Alaska Railroad Suspends 2009 Open Houses

ANCHORAGE, Alaska – The Alaska Railroad Corporation (ARRC) is forced to suspend the 2009 Public Open Houses in Anchorage and Fairbanks. Continued construction activity in Anchorage on the Ship Creek Intermodal Transportation Center (ITC) project precludes holding an open house at the Historic Ship Creek Depot.

Due to logistical and resource planning common to both open house events the railroad decided to suspend the Fairbanks Open House. Depending on continued construction activity a decision will be made regarding Open House activity for 2010.
